1) Elite Teaching Staff and Employees

Our 20 foreign teaching staff members come from the United States, Canada, Australia and England.
Each staff has an abundant teaching experience or plus an acquired teaching license. Our 5 Japanese staff members are a Japanese kindergarten teacher, nutritionists and bus drivers.

2) Sophisticated Curriculum

We have created our own curriculum based on American, Canadian and Australian education methods.

Each subject is aimed with distinct intentions and goals. We hold Sports day, Halloween and Christmas parties, other school festivities through out the year.

We go on several field trips with the courtesy of the school bus.

We try to provide as much Japanese culture and events to nurture the children as much as possible.

3) Excellent Follow-up

Each semester we hold an open day, and parent teacher interview.

The interview will consist of going over an evaluation report covering over 100 topics.

The report will show the progress and achievements, and proper advice could be possibly given. A contact book is made to report daily progress.

Above that weekly reports, and photo attached monthly newsletters will be distributed to follow-up on update and progress of the children and school.

4) Great Facilities

Our establishment holds 2 preschool classes, and 4 kindergarten classes. It also has

- Indoor gym also used as a theater room
- Playground
- Outdoor children's swimming pool
- Lunch room with a huge open-air deck
- Music room

5) 40% Foreign Students Ratio

Each class fosters a ratio of 4:6 foreign students to Japanese students.

It is unfortunate to announce that as exquisite a teacher environment without foreign students is meaningless in raising global citizens.

That is why we always consider having a class with one in three children foreign at least.

Currently more than 100 students from 7 countries enjoy spending their school life.

6) No Long Vacations

We do not offer long vacations, for example summer and winter, in order to maintain the positive progress of our students.

7) Additional Services

Early morning and overtime services, utilizing private bus from and to school services, and daily balanced menu provided by licensed nutritionists are offered.

We also have partnership with hospital clinics.(Internal, Infant, Dental, Ophthalmology)
